

## Barrel Clamps

Barrel Clamps - A Barrel Clamp is actually a hydraulic or mechanical accessory designed for a lift truck. It can be utilized so as to grip the object you wish to move with the forklift and is typically utilized for handling kegs, paper rolls and barrels. Several designs of barrel clamp accessories also have a rotate function. Like for example, the rotate function permits the individual operating the forklift to insert a vertically stored paper inside the horizontal intake of a printing press.
