

Meritor Part

Meritor Parts - Meritor is a premier international supplier which is proudly built on a one hundred year custom of quality and service. They focus on a broad range of modules, integrated systems and components to original equipment makers and the aftermarket for the industrial and transportation trades.

Meritor values the needs of their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over 11,200 people, Meritor promotes innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in only employing future focused employees. These top-caliber people could rapidly adapt to changing environments and freely exhibit the level of commitment and performance necessary so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers all of their staff various opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of axles, drivelines, braking and suspension systems utilized for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of their worldwide engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group who is committed to ensuring optimum progress at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

The supplier development network is specifically located so as to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every part of the business. The DFSS or otherwise known as Design for Six Sigma ensures product reliability in every region. The team is also included transactional Green Belts who use Six Sigma tools to business processes and implement lean techniques.
