

## TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, forklifts play a major part for transporting industrial goods. First innovated as industrial vehicles in the 1930s in the United States, forklifts gained recognition following World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread worldwide.

Originally started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first lift truck. Throughout the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation with the business. TCM started building forklift manufacturing sites outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly manufactures several models of industrial lift trucks with more than 50 years of accumulated expertise and technology, making their products recognized and used all over the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
