

Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory can automatically start to both dump and release as soon as the bumper release touches the side of a dumpster. When unloading is finished, the hopper is able to go back to original locked and upright position. This particular piece of machinery likewise comes together with a cable which allows operation from the seat of the lift truck in order to have the choice of manually dumping the hopper. There is a locking chain provided in order to lock the hopper to the fork truck. This product is made with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish in order to maintain durability.
