

Clark Forklift Parts

Clark Forklift Parts - Currently, there are over 350,000 Clark lift trucks performing globally, and upwards of 250,000 in use in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 particular components fabricated for 20 unique brands of lift trucks and automated equipment. Your regional Clark Seller is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Internationally, Clark has one of the most impressive dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering protection features such as the operator restraint system. This exceptional dedication to safety is now a customary feature on every forklift.

Clark's continual mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the globally accepted quality standard ISO 9001 for each and every one of their production plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has chosen the structure of "Lean Manufacturing" at all of its assembly plants for the reason that this system is extremely economical and permits minimal use of resources. Established to guarantee maximum proficiency, this system is designed to find and acknowledge the most effective ways for production facility management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The contemporary value engineering agenda combines modern product development and offers improved client support and service within the industry.
